CCLA Commissioner J. Raymond Peter

## Statistical Local area planning

TRAC Participated in the “Orientation Program for Public Servants in the Context of Telangana”, sponsored by Planning Department, Government of Telangana. TRAC presented a pilot project on statistical local area planning. In this presentation the data of certain parameters was taken from DES such as population, literacy rate, and ration cards vs. households, cropped area, and major crops, govt schemes information etc was shown spatially for a Huzurabad constituency and presented for doing better analysis for the decision makers.

The Directorate of Economics and Statistics (DES) organized the 10th Statistics Day Celebrations in recognition of the notable contribution made by Prof. P C Mahalanobis in the fields of economic planning and statistical development in the post-independent era. The theme of the celebrations was “Agriculture and Farmers Welfare” in view of the current focus by the Government on farmer-centric programs and development of agriculture and rural statistics. On this occasion, the valedictory function of the “Orientation Program for Public Servants in the Context of Telangana”, sponsored by Planning Department, Government of Telangana, and executed by Dr. MCR HRD Institute was also held. B P Acharya, IAS, Principal Secretary to Government, Planning Department, said good data and statistics were indispensable for informed decision-making by all actors in society. He stated that as Telangana State embarks on implementing the agenda for sustainable development, reliable and timely statistics and indicators are more important than ever. He opined that statistics does not mean merely churning out reports. “The collection of data, analyses, and reports will achieve their cherished goals only when they are instrumental in meeting the felt needs of the common man”, he added.

Mr J. Kiran (TRAC) giving presentation on statistical local area planning@“Orientation Program for Public Servants in the Context of Telangana”

AK Goel, Dr. GR Reddy and Sri Ramachandrudu Tejavat Naik released Telangana Statistical Newsletter, Season and Crop Report, 2014-15, and Economy in Brief-Telangana State, 2016, respectively

## Trainings this month

### 17th IIRS Outreach Programme on "Geoweb Services and Geoportal applications":

Geospatial technologies (Remote Sensing, GIS, GNSS and ICT) can play an important role in effective decision making, execution and management of various development programmes of Government of India. In the recent past, the availability of geospatial data and information services through various websites and geo-portals such as ISRO Bhuvan, India-WRIS, BIS/IBIN, NSDI, Google maps, Bing Map, Open street maps etc., are getting popular among user communities. This online course of two weeks duration it is a unique opportunity to learn the effective-ways of using online Geoweb services- Geoportal and their applications

TRAC also has participated in this course, 49 members are attending the course from 3:30 pm to 5:00 pm.

### Webinar

#### What's new in ArcGIS 10.4 Desktop Server and Portal?

ArcGIS 10.4, the latest release, includes exciting new capabilities for visualizing and analyzing data. This release builds upon recent improvements and new features added to ArcGIS Online and ArcGIS Pro, including vector tiles, 3D scenes, and self-service tools for spatial analysis, new formats for imagery, and a new globe called ArcGIS Earth.

#### Key takeaways

- Vector tiles
- Local Scenes
- Lidar tool updates
- Sharing layers and maps
- New imagery formats supported
- New licensing updates

ArcGIS 10.4 / 10.4.1 and ArcGIS Pro 1.2 bring you new and improved capabilities for visualization and enterprise readiness plus new and enhanced apps. Here are a few of the highlights
